

Help is provided by Wormhole Assistants in the order that requests are received. You ask for help through the Wormhole queue using the procedure below.

Full information is available on the [physics department Wormhole web page](#).

### **The Physical Wormhole**

#### **Masks must be worn at all times in the Physical Wormhole.**

- 1) You may use the physical Wormhole as long as a seat is open. If all seats are taken, please come back at another time. This is to prevent overcrowding and protect everyone in the room.
- 2) To request help use the box on your table. Just press the button for your course and a help request will be entered for you in the queue. If you're working in a group, only one person in your group needs to request help.
- 3) When your request reaches the top of the queue, a Wormhole Assistant will come to your table.
- 4) You can check the status of your request at any time using the live queue at the request website.

### **The Virtual Wormhole**

- 1) You can work remotely through MS Teams or in the Wormhole Zoom session. The Zoom session provides break out rooms for each course. Links are available on the Wormhole website.
- 2) Requests should be submitted using the link e on the physics department Wormhole website. This link is also available in the Teams Wormhole channel.
- 3) Fill in the requested information. If you're working in a group, only one member needs to submit a request.
- 4) Note that the Assistant may not have access to your assignment, so be prepared to share any problem you want help with.
- 5) When your request is assigned to an Assistant, they will use the identifying information you provided to find and respond to your post.
- 6) You can check the status of your request at any time using the live queue at the request website.
